# Introduction

2

# **General Context**

Idea, Needs, objectives .

### **Problem and Idea**

Several people are in need of tech devices and gadgets

But they have little to no technical knowledge.

Create a web app that recommends Tech-Gadgets!

### **Functional requirements**

## User

Authentification —— Description of a Tech-Gadget

Evaluate Results Obtain a list of

products

## **Guest**

Description of a Obtain a list of Products

#### Non Functional requirements

1- User experience

3- User adaptable

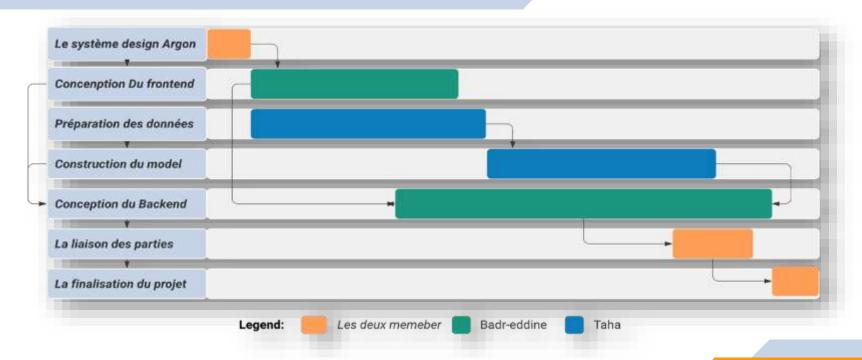

2- Progressive learning

4- Confidentiality

## **Planning**

## **Frontend**

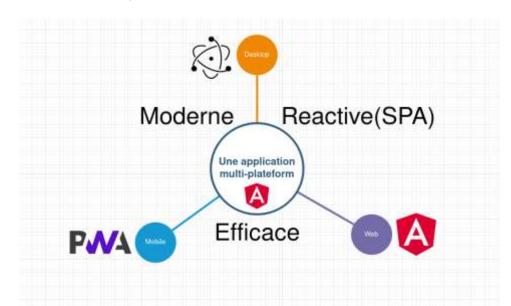

Development Tools, Interfaces ...

#### **Frontend Technologies**

#### **Problem, solution and Tech-stack choice**

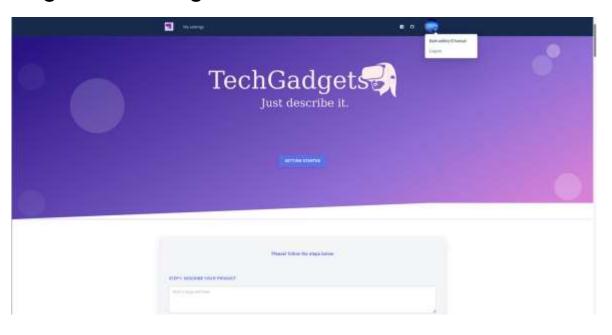

#### **Responsive Platform**

### **Significante Logo and Colors.**

## **User Interface (Main dashboard)**

          good I guess I've got what I paid for, at $2.49. It (the phone charger) arrived undamaged, but it doeen't work at all. I'd give
          the product NO stars cuz A phone charger that isn't functioning is worthless u gotta gimme my money back.
